

## Design of Experiments Contents

Day	Section	Contents
Day 1	Section 1	Introduction to Design Of Experiment
	Section 2	Hypothesis Testing <ul style="list-style-type: none"> <li>One sample tests                             <ul style="list-style-type: none"> <li>• Test of mean, Z and t tests</li> <li>• Test of Variance, <math>\chi^2</math> test</li> </ul> </li> <li>Two sample tests                             <ul style="list-style-type: none"> <li>• Test of means, Z and t tests</li> <li>• Test of Variances, F test</li> </ul> </li> <li>Basic Analysis Of Variance (ANOVA)                             <ul style="list-style-type: none"> <li>• Assumptions in ANOVA</li> <li>• Application of ANOVA</li> </ul> </li> </ul>
	Section 3	Design of Experiment <ul style="list-style-type: none"> <li>General                             <ul style="list-style-type: none"> <li>• Conventional approach versus proper Design</li> <li>• Terms and definitions use in DOE</li> </ul> </li> <li>One Factor Design                             <ul style="list-style-type: none"> <li>• Complete Randomize Design</li> <li>• Complete Randomized Block Design</li> </ul> </li> <li>Steps in conducting DOE</li> </ul>
	Lunch	
	Section 4	Modeling Designs <ul style="list-style-type: none"> <li>Full Factorial Design                             <ul style="list-style-type: none"> <li>• Design Matrix of 2 level and 3 level design</li> <li>• Full Factorial application</li> <li>• Data analysis and modeling</li> </ul> </li> <li>Fractional Factorial Design                             <ul style="list-style-type: none"> <li>• Flexibility of Fractional Factorial design for screening and modeling</li> <li>• Fractional Design application and analysis</li> </ul> </li> </ul>
Day 2	Section 1	Response Surface Methodology <ul style="list-style-type: none"> <li>• “Good” response surface designs</li> <li>• RSM steps by steps</li> </ul>
	Section 2	Building and Analyzing CCDs <ul style="list-style-type: none"> <li>• Customized CCDs</li> <li>• Model reduction</li> </ul>
	Lunch	
	Section 3	Response Surface Optimization
	Section 4	Response Surface Designs <ul style="list-style-type: none"> <li>Box-Behnken designs                             <ul style="list-style-type: none"> <li>• Response transformation</li> </ul> </li> </ul>
